

READY TO USE CLEANING PRODUCT FOR INCREASED ADHESION

Characteristic product properties

- Ready to use.
- Fast cleaner.
- Effective degreasing agent.
- Low odour.

Applications

Cleaning product for improved adhesion on tiled surfaces. It can be used inside or outside. This "rapid" cleaning product can be used to remove traces of grease, oil, diesel, ink, grime and nicotine deposits. It can be used on water-resistant surfaces, such as ceramic tiles, marble, linoleum, terrazzo and wooden floors, swimming pools and concrete enamel. CLEANER omnibind replaces ammonia as a cleaning and/or degreasing agent.

Appropriate surfaces

- Concrete
- Coating
- Epoxy coating
- Linoleum
- Decorative coating
- Stone carpet
- Paint (lacquer)
- Rigid quality vinyl carpet (PVC)

Other products/applications

- Industrial cleaning products are required for oils and heavy greases.
- Porous surfaces (e.g. terracotta, porous natural stone) containing grease or wax will probably have to be sanded.

Preparing the surface

- Remove any loose particles, heavy grease residues and other grime.
- Cover surfaces that must not be treated or protect them carefully!

Instructions for application

- Apply undiluted using a sponge, brush, floor cloth or spray.
- In most cases, a single treatment is sufficient.
- Leave for a short time and brush, if required.
- Remove any residues using a clean, dry cloth and allow the surface to dry fully.
- Do not apply during frosty weather (this applies both to the surface and the ambient temperature).

Required tools

- Sponge, brush, floor cloth or spray.
- Dry cloth.

Consumption

Approx. 100 ml/m². The actual consumption can vary, due to the wide variety of possible surfaces and amount of grime. You can calculate the consumption of pre-treatment at www.omnicol.eu.

Cleaning tools

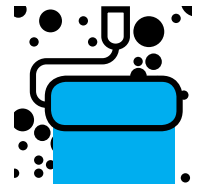

After use, dry using a cloth.

Product composition

CLEANER omnibind is a water-based degreasing product and contains biodegradable tensioactive agents.

Tile on tile

**Technical properties**

- Supplied in the form of : liquid, solvent-free
- Colour : none, light
- Consistency : water-like fluidity
- pH value : approx. 12.5
- Density : 1.008 kg/l
- Odour : low odour

Packaging

- Available in 1 or 5 liter recyclable, plastic jerrycans.

Storage and shelf life

- Transport and store away from frost.
- Shelf life in original sealed packaging: 24 months.

Health and Safety

The CLEANER omnibind safety information sheet is available on request.

This technical data is based on many years of practical experience and laboratory research. We cannot be held liable for the work produced in accordance with our systems since factors on which we cannot make an assessment or influence also determine the final result. We guarantee that this product is always supplied in a quality that remains the same. If you have any doubts, we recommend performing tests yourself. See www.omnicol.eu for the most recent version of this TDS.
